### HIGH PRAISE FOR INDIAN STUDENTS

The following tribute to the intelli gence of the little Indian school chil-dren at Tuba City by one who, it is plain to be seen, is in close sympathy with them, will interest our readers. "Tuba City, Ariz., June 2.

"Dear Editor: Wish you had a re-porter out here, but as you have not I delegate myself to report. Prof. Walker is on his way from Flagstaff now to deliver our commencement address tonight. We are having a week of exercises, and my time and ability are so limited that it is impossible for me to do justice to the story of our wonderful week. If I were able to give you a word picture of what the children did last evening in their presentation of the little Pine Tree pageant it would make interesting reading. To those who are familiar with the story it will be seen what possibilities there are for talent and training. These children were really wonderful! The great pity is that more people were not here to witness

"Commissioner of Indian Affairs Burke, of Washington, D. C., who complimented us very highly upon our commemoration of Mother's Day, and who just left a week or so ago with his party, which included Supt. Pierce of Haskel School, Lawrence, Kans., and several other noted men, would have been much pleased could he have been here. The different parts played by the children were breezes, fairies, mirage people, night, morning, voice, trees, and others. The grace and beauty of these children would cause many trained dancers on the stage great envy, I am sure. I am a Kansas City girl. Having lived in Kansas City and Chicago all of my Kansas City and Chicago all of my life I have seen talent, but nothing so rare and rich as we have right here among these children. The graduating class tonight, consisting of five girls, Alma, Alice, Agnes, Hilga and Irene, and Max, the only boy, do great credit to this school.

Our superintendent, Byron Sharp, is loved by the Indians all over the reservation and he cannot pass through the grounds but scores of children are at his heels, smilingly waiting for the hearty, pleasant words which are bound to come to them. He is as a brother and father to us all, both em-ployes, (of whom I am one), and pu-We have two very decidedly accomplished Indian girls here from the Phoenix school, Myra Dodson, who furnished the excellent Indian music for the pageant, and Katherine V. Hunter, possessor of a beautiful high soprano voice, trained and cultured as any opera singer, directed the mu-sic and songs. She is not upon the stage on account of the religious principles of her old Indian father. But the public's loss is our gain. We only regret that more of you do not know of our talent here.

Come and see us. In the name of our superintendent and the Western Navajo reservation I extend a hearty invitation to you all to make us a visit as often as you can, and my advice would be, do not forget the com-mencement week at the Western Na-
